

## D2

## Module D2—Leximancer Next Steps

### Overview

#### Purpose

#### Learning objectives

On completing this module, participants will have a greater understanding of more advanced aspects of analysis using Leximancer including:

1. Seeding concepts
2. Profiling
3. Interpreting results

#### Who should attend, and module pre-requisites

This module is designed for people who are familiar with using Leximancer and who want to take their skills to the next level, building on the concepts learnt in the Introduction to Leximancer module. This one day course will cover advanced topics, such as profiling and the interpretation of results. Participants will have the opportunity to conduct guided work on their own data and projects

#### Topics covered

##### Session 1

- a) Seeding Concepts
- b) Profiling
- c) Interpreting Results

##### Session 2

- d) Working on your data
